High-Load Fuse Set 175 A

BÜTTNER
↗DOMETIC

Information

Pack size	25.9x22.5x3.9 cm
Net weight	300 g
Gross weight	300 g
Catalogue page	589

The 175 A high-load fuse set is not a replacement but an addition to the existing wiring kit. Many Dometic systems (e.g. battery chargers, battery separation systems, inverters up to 1500 W) already include a main fuse. However, if additional consumers are connected or a longer cable is protected, this set allows you to retrofit a second fuse – providing an additional level of protection against overload or short circuit.
