Adapter Cable SureSeal Socket to XT60 i-F

SOLARA®
module. komponenten. systeme

Information

Pack size	15 x 12 x 7.5 cm
Net weight	250 g
Gross weight	300 g

This adapter cable features a SureSeal socket and an XT60i-F plug. It allows SOLARA and DCsolar folding panels to be connected to devices with an XT60i-F input – for example, many common power stations.

With a cable length of 1 m, the cable is ideal for a compact, tidy connection between the solar panel and the end device. It ensures reliable power transmission and is optimally designed for mobile use when camping or on the go.
