Work Light with Dynamo HL 600 AD

Information

Dimensions	5.6x26x5.2 cm
Pack size	31 x8.8x6.5 cm
Net weight	120 g
Gross weight	210 g

The rechargeable LED work light HL 600 AD is a versatile and powerful light with a brightness of 300 lm, perfect for use in workshops, when camping or for repair work. It features a built-in dynamo that provides an independent power supply. The handheld light is equipped with a practical hook and a magnet, allowing it to be easily hung or attached to metallic surfaces – perfect for hands-free working. It comes with the new interchangeable battery system type 18650 (2.5 Ah, 3.7 V).
