Regulator Heater

TOPTRON powered by 

Information

Dimensions	700x1.5x17.5 cm
Pack size	27x17.5x1.5 cm
Net weight	130 g
Gross weight	130 g

The use of a Toptron regulator heater ensures a trouble-free gas supply during winter operation in your motorhome or caravan. The heating element is suitable for installation on Cavagna pressure regulators, e.g. CPU Tank Safe, and switchover systems, e.g. CPU Due Safe, with a corresponding blind hole and can be connected to the 12 V vehicle electrical system via a standard switch (not included). Complete set for new installation or retrofitting in a specialist workshop.

Scope of delivery CPU regulator heater set:

- Aluminium heating element, operating voltage 12 V DC, capacity 2 W, ready-made with 7 m cable and CVILUX connector plug
- Adhesive Weicon Contact VA100
