The Ekrano GX is the next generation of the GX product family. With its numerous connections and interfaces, as well as a built-in 7-inch touchscreen display, it is the most powerful GX device to date. Essentially, it combines the Cerbo GX with the Touch 70 GX in one device, additionally equipped with a more powerful processor and further features.

The Ekrano GX is the heart of your energy system. All other Victron system components – such as inverters/chargers, solar chargers, batteries, etc. – are connected to it. The Ekrano GX ensures that everything works together harmoniously.
