### For clean water on the go

The awiwa® silver water conserver is the ideal solution for anyone who wants to enjoy fresh, clean water while on the move. Be it in a caravan, a camper, on a boat or during outdoor adventures – with awiwa® silver, your drinking water remains free from germs and contaminants for up to 6 months.

Thanks to its silver base, awiwa® silver reliably protects fresh water from recontamination without using chlorine or nitrate. This makes the water conserver not only effective but also odourless and tasteless. Additionally, it prevents the formation of biofilms and ensures that your entire fresh water system remains clean.

With just 100 ml, you can preserve up to 1000 litres of water, making awiwa® silver particularly economical. The practical dosing aid with measuring cup also ensures easy and precise application.

### Advantages at a glance:

- **Effective germ protection:** protects water for up to 6 months.
- **Odourless and tasteless:** no chlorine, no nitrate.

### Specifications

|         |             |
|---------|-------------|
| Colour  | transparent |
| Content | 100 ml      |
