Dimensions	66x45x45 cm
Pack size	69x21x21 cm
Net weight	3.5 kg
Gross weight	4.5 kg

Specifications

Colour	grey
Size	M
Textile material	polyester

The sturdy companion for safe dog travel

The pet transport crate combines maximum stability with thoughtful functionality – ideal for small and large dogs who need to be comfortably and securely accommodated on the go.

The crate is foldable from the side and consists of a stable steel frame with a powder-coated surface in elegant dark grey. Thanks to this robust frame, the dog crate retains its shape at all times and provides the dog with a safe, comfortable place to retreat.

A particular highlight is the intelligent access system: two doors made of breathable mesh material – from the front and from above – allow the dog to look outside without feeling confined. This makes the crate a bright, friendly retreat that combines safety and comfort.

Space and flexibility

With its dimensions, the dog crate offers ample room for movement, rest and comfort – even for larger dogs. The steel carrying handles on the sides can be folded in with a simple motion, so that the crate can either be easily carried by one person or effortlessly moved by two. Thanks to the intelligent folding mechanism, the dog crate can be folded down extremely space-saving. It can also be easily stored in the car – on

the back seat or in the boot. Additional safety straps ensure the crate remains secured during transport.

Material & workmanship: steel frame with powder-coated surface, mesh fabric (breathable), stable and robust

Function & features: two doors (front and top) made of mesh for light, air circulation and a clear view. Side carrying handles, foldable, for comfortable carrying. Side foldable for space-saving storage. With safety straps for secure transport in the car.
