

Item no. 610/460
Manufacturer's no. 2865

Magnetic Door Stop with Rubber Buffer

Information

Dimensions	6.5 x 2.3 x 3 cm
Pack size	6.5 x 3 x 2.3 cm
Net weight	22 g
Gross weight	25 g

This high-quality magnetic door stop with rubber buffer reliably holds doors and hatches open. The rubberised magnetic system dampens impacts well and protects against scratches. Attach the stop to the back of a door or directly to the wall and ensure a suitable counterpart. With an overall length of 65 mm and a hole distance of 50 mm, this door stop is the ideal solution.

NdFeB, 2 x drill holes $\varnothing$ 5 mm, hole distance 50 mm, rubberised including damping, holding force*: 60 N/6 kg

* The forces were determined at room temperature on a polished steel plate (S235JR according to DIN 10 025) with a thickness of 10 mm (1 kg ~ 10 N). A deviation of up to -10% from the specified value is possible in exceptional cases. Generally, the value is exceeded. The type of application (installation situation, temperatures, counter-anchors, etc.) can significantly influence the forces. The specified values are for guidance.

Specifications

Colour	black
Content	1 piece
Material	rubber
