Catalogue page	746

The Resino impresses in terms of quality, functionality and durability.

The edge-free tabletop made of robust polypropylene makes the table very lightweight without compromising stability. The tried and tested quick-release mechanisms allow for easy, stepless height adjustment of the legs. The height range from 63 to 74 cm enables optimal alignment on uneven surfaces. The wide swivel base feet protect the awning carpet and prevent the table from sinking into soft ground.
