The 200 AW8 light impresses with its modern, functional design that integrates harmoniously into any recreational vehicle. The slim construction ensures a discreet appearance, while the integrated rain gutter not only enhances the look but also offers practical use by directing water away effectively.

With a light colour of 4000 Kelvin, the light produces a pleasantly neutral illumination – ideal for use on the vehicle without appearing too cold or too warm. A well-considered combination of design and functionality for more comfort on the road.
