This solar panel is made from monocrystalline high-performance cells with a high-quality glass coating. The multi-layer construction withstands the toughest environmental conditions. Special bypass diodes protect the cells from overvoltage and allow the solar panel to continue operating even in the event of shading and accidental breakage of the photovoltaic cells. Compared to the standard version, this solar panel is slightly narrower.

Specifications

Cable length	6 m
Short circuit current	5.66 A
No-load voltage	22.74 V
Number of panels	1
Nominal power solar panel(s)	100 Wp
Nominal voltage	12 V
Daily output	400 Wh
Type	PSM 100 WP-S
