

Item no. 323/946

Manufacturer's no. RBM500-G3-DE

Battery Monitor

Information

Dimensions	9.9x6x1.8 cm
Pack size	21 x 15 x 5.5 cm
Net weight	600 g
Gross weight	750 g

The Renogy Battery Monitor 500 A is a precise battery monitor for 12 V, 24 V, 36 V and 48 V systems. It is suitable for LiFePO₄, AGM, Gel, wet and other battery types and is ideal for motorhomes, boats and off-grid applications.

The backlit display clearly shows important values such as voltage, current, capacity and consumption. A programmable alarm warns of too high or too low capacity and helps protect the battery from deep discharge. Thanks to the memory function, data is retained even after a power failure. Installation is made particularly easy by the transparent shunt holder and the long connection cable.

Specifications

Colour	black
Content	1 piece
Nominal voltage	12 V
Nominal current	500 A
Type	RBM500-G3-DE
