| Net weight     | 980 g       |
| Gross weight   | 1.7 kg      |
| Catalogue page | 662         |

The Kit 1 consists of 5 parts: Omnia camping oven, silicone mould, baking rack, storage bag, pot holder set  
 With the clever little Omnia camping oven, you can bake and make casseroles on holiday. Simply place it on a heat source – open flame and hotplate work equally well – and its design creates the necessary heat inside to make delicious oven dishes. The oven is incredibly versatile and has already proven itself thousands of times.

The silicone mould can be put in the baking tin and makes cooking and baking even easier. The mould is easy to clean and ensures that food does not stick to it.

The baking rack is perfect for rolls as well as for steaming vegetables and fish.

The space-saving storage bag for effortless and dust-free storage of all Omnia utensils. Space for up to 2 sets!

Two stylish pot holders in beige with a wine red rim.
