Schaum Kanone Exterior Shampoo Concentrate 1 l

Highly foaming cleaning concentrate for washing the exterior of caravans, motorhomes and cars. The powerful formula reliably removes oil and grease stains, soot and brake dust. The dense foam thoroughly dissolves even stubborn dirt while being gentle on sensitive surfaces. The XtraSkin effect reduces new dirt deposits and noticeably facilitates the next wash.

Professional cleaning with intensive foam formation

The highly effective concentrate thoroughly removes road dirt, brake dust, oil residues and typical environmental deposits. The adhesive foam works intensively without attacking paintwork, GRP surfaces or wraps. This results in a uniformly clean exterior surface with safe and comfortable application.

UltraFoam technology & XtraSkin – adheres longer, cleans more effectively

The fine-pored, dense foam adheres particularly well to vertical surfaces and extends the exposure time. Deposits are intensively soaked and can be removed significantly more easily. The XtraSkin effect leaves a fine protective film that reduces re-soiling. The result: visibly clean surfaces and a noticeably easier next cleaning.

Economical & efficient in use

The concentrate is especially economical and offers a high coverage. This makes it more efficient than many conventional exterior cleaners. Various container sizes make it ideal for private campers, frequent travellers, as well as professional detailers and rental companies. The high yield reduces the cost per wash and ensures economical use.

Suitable for caravan & GRP – gentle on materials and environmentally conscious

The formula is tailored to GRP surfaces and typical caravan materials. It is free from strong solvents. Also suitable for other vehicles – ideal for regular care.
