

Item no. 322/112
Manufacturer's no. 9990085

Battery Charger LAS 1218-2

Information

Dimensions	145 x 90 x 245 mm
Pack size	29.6 x 16.7 x 12.7 cm
Net weight	1 kg
Gross weight	2.82 kg
Catalogue page	580

LAS 1218-2

Like the LAS 1218 BUS, the battery charging device LAS 1218-2 is operated as a primary-phase switched power supply unit. In comparison to the LAS 1218 BUS, the charging technology is accomplished without temperature compensation and with two charging characteristics curves.

Features:

- Charging characteristics curves for lead-acid and acid-gel batteries
- Constant charging current even with fluctuating mains voltage
- Can be used as a power supply unit without a connected battery
- Recharging of the starter battery with max. 3 A
- Weight saving of around 80% compared to a comparable thyristor charger
- No ripple voltage at the output
- High efficiency of approx. 90%

Specifications

Output voltage	12 V
Nominal voltage	230 V
Nominal current	18 A
