Innovative magnet set QuickConnect – easy installation from the outside

Discover the innovative magnet set QuickConnect, which has been specially developed for efficient and quick installation of the SuperSense sensor. This high-quality set allows you to conveniently install the sensor from the outside of the tank without having to access the inside.

Easy installation thanks to 42 mm hole

The QuickConnect is easily installed through a standard 42 mm hole on the tank. Once installed, the SuperSense sensor can be securely and precisely inserted and screwed into the QuickConnect.

Optimum performance and seamless integration

Take advantage of the QuickConnect magnet set for seamless integration and improved performance of your sensors.
