The **Truma VarioHeat eco** is the perfect heater for motor-homes, caravans and vans. This compact heater offers efficient performance and can be installed flexibly without losing valuable storage space. Installation is uncomplicated and space-saving. With the optional Truma E-Kit (item no.: 309/599, not included), the VarioHeat eco becomes a versatile electric heater. It is controlled via the digital control panel Truma CP plus VarioHeat.

Truma CP plus VarioHeat

The digital control panel can be used to control and monitor iNet-enabled appliances. The ergonomic design and intuitive operation make it easy to set the desired functions.

Scope of delivery: cable length 6 m, room temperature sensor, mounting bracket and accessories for electrical connection
