Insect Repellent HALO Mini graphite, PT-19

Information

Dimensions	10.3 x 16.5 x 10.3 cm
Pack size	23 x 10.3 x 10.3 cm
Net weight	220 g
Gross weight	310 g
Catalogue page	103

The Thermacell HALO Mini in Graphite colour offers reliable mosquito protection in a stylish way. With its modern appearance, it blends in harmoniously on any camping table, balcony or garden, effectively keeping mosquitoes and other blood-sucking insects at bay.

Thanks to the proven Thermacell technology with the eucalyptus citriodora active ingredient, a protection area of around 15 m² is created, repelling up to 98% of mosquitoes. It operates using active ingredient pads heated by a mini butane gas grill with piezo ignition – completely flame-free and therefore particularly safe.

The application is simple, clean and pleasantly scented: the released active ingredients emit a light citrus fragrance, providing a skin-friendly alternative to sprays or lotions.

Advantages:

- Effective protection area of approx. 15 m²
- Up to 98% fewer mosquitoes
- Safe operation without open flame
- Subtle, pleasant citrus scent
- No lotion, no spray – no residue on the skin
