PP Screw Peg Peg&Stop N

Information

Dimensions	20 cm
Pack size	40x 10x4 cm
Net weight	40 g
Gross weight	220 g
Catalogue page	72

Peg&Stop is the fibreglass-reinforced, infinitely height-adjustable screw peg with lock nut suitable for the Fix&Go anchor plate 2.0. The newly developed Peg&Stop N is screwed in using a cordless screwdriver or hand spanner, only until there is sufficient hold and the screw no longer has any room. To avoid overtightening the screw, one or two clockwise turns of the lock nut are sufficient to steplessly fix the anchor plate by counterpressure (pre-drilling can be helpful, especially in winter).

Specifications

Content	4 pieces
Material	PA polyamide
