

Item no. 310/997
Manufacturer's no. 1307

Silicone Mould, 1 pc

Information

Dimensions	6x23 cm
Pack size	23x23x5.5 cm
Net weight	180 g
Gross weight	200 g
Catalogue page	663

The Omnia silicone mould for the baking tin makes cooking and baking even easier. The design and the reinforced material with a stabilising rim make it easier to prepare food in the Omnia camping oven. The silicone mould is particularly easy to clean and it is very easy to remove baked goods from the mould. Thanks to the high-quality and bendable silicone, finished cakes, for example, can simply be pressed out of the mould.

The silicone cooking/baking mould does not usually need to be greased. The material is neutral in taste and resistant to fruit acids. The surface is easy to clean.

Together with the Omnia oven, the silicone mould can be used on almost any stove, even over an open fire.

Specifications

Colour	red
Content	1 piece
Material	silicone
