Manufacturer's no. P82-1900

Suction Cup ClingCup with M6 Threaded Pin, black

ClingTech
Bionics

Information

Dimensions	4.6x8.2 cm
Pack size	12x9.5x6 cm
Net weight	71 g
Gross weight	96 g

The **ClingCup with M6 threaded pin** is the reliable solution for securely attaching awnings and various accessories. The integrated M6 threaded pin allows for stable, easy installation and ensures a firm hold – all without drilling.

As an especially robust and powerful suction cup, the **ClingCup suction cup** is suitable for versatile applications in sports, swimming pools, water sports and camping. The innovative **Clingfish® Effect** provides strong adhesion on many smooth and lightly textured surfaces. It is important that these are airtight or watertight to ensure a secure connection.

Be it for mobile or temporary attachments – the ClingCup impresses wherever high holding force and flexibility are required.

Features and advantages:

- Robust, powerful suction cup with Clingfish® Effect
- Adheres to anti-slip tiles, laminate, textured tiles and many natural stones
- Suitable for airtight and watertight surfaces
- Ideal for portable solar collectors, fitness bands, punching bags, canvas awnings, echo sounder technology or scientific sensors

Specifications

Colour	black
Content	1 piece
Material	plastic

- Tensile strength: up to 25 kg (observe safety factors for long-term applications)
- Pull-off force: 25 kg in vertical direction, approx. 9 kg in horizontal direction
- Manufactured in Germany
- Production with at least 50% renewable energy

Ideal for camping, caravanning and outdoor use – quickly attached, reliably fixed and flexibly deployable. Perfect for anyone seeking a strong fastening solution without drilling.
