The Thetford separation toilet is the smart solution for modern, self-sufficient camping. It separates liquids from solids and operates completely without water. This provides maximum independence – ideal for trips away from developed infrastructure. Emptying the containers is straightforward and does not require fixed disposal stations. Thanks to effective odour control, hygienic emptying and easy-to-clean surfaces, comfort on the road is always assured – no matter where your journey takes you.

A fully functional separation toilet as an alternative to the cassette toilet C220.

Advantages:

- Patented mechanism for visually covering solids – the lever can be placed either on the right-hand or on the left-hand side
- Ergonomically designed toilet bowl
- Easy to install including complete toilet bowl
- Urine container with practical fill level indicator
- Leakproof connection for comfortably emptying the urine tank
