Module Colorado city water regulator

The Colorado city water regulator is the perfect accessory for a constant and secure water supply directly from the municipal water network. This module has been specifically designed for use with the Smart Supply service hatch and optimally regulates water pressure to protect your vehicle from overpressure. The city water regulator is easy to install and impresses with its robust construction, which is designed for long-lasting performance. Ideal for campsites with water connections – the Colorado city water regulator ensures a stress-free and comfortable water supply just like at home!
