Dimensions	485 x 385 x 443 mm
Pack size	48.5 x 46.5 x 39.5 cm
Net weight	6.8 kg
Gross weight	6.8 kg
Catalogue page	465

No water, no chemicals, but 100% comfort: Arwinger cassette separating toilet

With the Arwinger cassette separating toilet kit, you can convert your Thetford chemical toilet from the C220 series into a separating toilet. Benefit from all the advantages of a separating toilet without having to compromise on the comfort and design of your built-in cassette toilet, especially the convenient and practical removal through the service hatch.

The upper part of the bowl of your chemical toilet is replaced by the seat part of the Arwinger cassette separating toilet kit. You can carry out the conversion by yourself using the supplied instructions without any specialist knowledge. The seat part ensures the separation of solids and liquids.

Both are collected by the Arwinger cassette separating toilet kit cassette, which is positioned in the service compartment and replaces the Thetford chemical cassette one-to-one.

Solids fall into the open container of the cassette, which is fitted with a bag, while the liquid is directed via a hose into the tank of the cassette. Both cassette parts can be separated for emptying. The container for solids has a volume of approximately 9 litres, while the liquid container has a volume of

Specifications

Colour white, black

approximately 7.7 litres. The fill level of the liquid tank can be read using an optical level indicator.

After converting the bowl, the seat and lid of the chemical toilet are attached to the new seat part, and your Thetford toilet looks as good as before.

- Professional, complete conversion kit
- For simple and quick self-conversion
- Precisely designed for your chemical toilet model
- Seat part produced by deep drawing for high quality and premium surface
- Separately emptyable solid and liquid containers
- Design and rotation of the chemical toilet as well as appearance and sealing in the bathroom remain intact
- Fully reversible if required

Technical data:

Seat part with separation function

- Material: ABS/PMMA plastic
- Colour: white
- Dimensions (W x D x H): 380 x 410 x 150 mm
- Inner diameter: lengthwise approx. 290 mm, crosswise approx. 250 mm
- Inner diameter solid outlet: 160 mm
- Weight: 830 g

Cassette

- Material: polyethylene
- Colour: black
- Dimensions (W x D x H): 250 x 500 x 250 mm
- Weight: 1985 g

Scope of delivery:

Seat part with separation function

- Seat part, ABS/PMMA, PVC
- Sleeve, silicone
- Sleeve fastening, PETG, polyamide
- Hose connection, brass
- Urine hose, PVC
- Ball valve, PP
- Fastening pins, PETG
- Conversion instructions

Cassette

- Cassette, PE, PA6, PVC, POM; incl. hose connection plug, POM; incl. tension strap, polyester
- Closure cap, PVC, PETG
- Latch, PETG
- Stopper, PETG; stopper holder, EPDM
- User manual
