Compact 2-burner gas stove for on the go

The **Gemini II gas stove** is the perfect solution for anyone who does not want to give up comfortable cooking while travelling. Whether you are camping, trekking or on a longer outdoor trip: with two powerful burners and independent flame control, you can prepare meals flexibly and efficiently – almost like at home.

Thanks to the **flat foldable design**, the Gemini II can be transported space-savingly and easily stored in a backpack. Despite its compact construction, the stove offers strong performance and is designed for reliable use under changing conditions.

Two burners for flexible outdoor cooking

With two **4600 W burners**, the Gemini II allows simultaneous cooking, simmering and frying. The **independent flame control** ensures that you can precisely adjust the heat for every dish – from quick boiling to gentle simmering.

An **integrated pressure regulator valve** guarantees consistent performance from start to finish. This ensures that even heat is available even under varying conditions.

Stable, wind-resistant and durable

The low, stable frame supports secure standing while
