Filter System Certec® Inline Complete Set, straight

Information

Dimensions	18.3 x 32.5 x 12.1 cm
Pack size	32.5 x 18.3 x 12.1 cm
Net weight	1.4 kg
Gross weight	1.7 kg
Catalogue page	425

Certec® Inline Compact Turbo Filter System

The Certec Inline compact turbo filter system by LILIE was specially developed as a solution for recreational vehicles.

- Innovative LILIE Push-and-Connect
- Cartridges can be exchanged very quickly
- Compact, easy to use and reliable
- Bioelectro DEPOT Plus
- Especially antiseptic and antibacterial
- Highest possible flow rate
- Minimised loss of pressure
- Very high protection against germs
- Extremely high filter performance
- Special activated carbon made of organic coconut
- Extremely high molecular filtering
- Extremely high wide-band absorption
- Integrated ventilation function
- Patented
- System-modular in LILIE TWSWG

Specifications

Colour	yellow
Material	POM polyoxymethylene
Variant	straight

- Unique integrated filter system
- Uniquely germ-extracting
- Approved for drinking water

Perfect water filtration

With the **Certec® Inline complete set**, you can enjoy consistently clean and safe drinking water in your motor-home, caravan or boat. This filtration system impresses with **a maximum flow rate, minimal pressure loss and a reliable filtration performance** – all while being easy to use and quickly installed.

Maximum safety through innovative filter technology

Thanks to the patented **Bioelectro DEPOT Plus**, the filter works **antiseptically and antibacterially**, providing particularly high **germ protection**. The specially developed **activated carbon from organic coconut** ensures **extremely high broad-spectrum absorption** and reliably removes pollutants, odours and impurities from the water.

Easy to install & durable

The filtration system is equipped with the **LILIE Push-and-Connect System**, which allows for **quick and secure assembly**. The included **valve adapters and quick couplings** ensure a **permanently tight connection** and are suitable for hoses with an inner diameter of 10 mm. Additionally, the filtration system can withstand a pressure of up to **5 bar**.

Thanks to its **compact design** and robust **stainless steel bracket**, the housing can be easily and securely clicked into place. The integrated **venting function** allows for operation **without splashing**.

The Certec Inline wrench is included in the scope of delivery.
