Hose Rupture Protection SBS/AU

GOK

Information

Pack size	18 x 12 x 6 cm
Net weight	72 g
Gross weight	72 g

Low pressure hose rupture protection for pull-out devices to be installed in a pipeline in motorhomes and caravans, for securing hose lines. Particularly suitable for connecting cooking appliances that need to be moved from the transport position to the operating position, as well as for connection to extendable modules of road vehicles.

Important: must only be used with a hose line with a maximum length of 750 mm. Must only be used in conjunction with devices that need to be moved from their transport position to their operating position or with extendable modules of road vehicles.

Specifications

Operating pressure	30 mbar
Max. pressure: PS	16 bar
