Suction Cup ClingCup with ActionCam Mount

ClingTech
Bionics

Information

Dimensions	5.2 x 82 mm
Pack size	9.5 x 9 x 6 cm
Net weight	85 g
Gross weight	125 g

The ClingCup suction cup for action cameras provides reliable grip on almost all airtight surfaces. This is made possible by the patented Clingfish-Effect®, which is based on the natural adhesion behaviour of the Northern Clingfish. As a result, the suction cup adheres not only to smooth surfaces but also to rough, curved or wet ones.

Be it for water sports, winter sports or motorsports – action cameras from GoPro, DJI, Insta360, as well as compatible Two-Finger-Mount adapters, remain securely fixed. Installation requires no drilling or screws: simply press on, attach and you are ready to go.

Advantages:

- High adhesion strength on smooth, rough and curved surfaces
- Patented Clingfish-Effect® for secure hold even when wet
- Compatible with GoPro, DJI, Insta360 & Two-Finger-Mount systems
- Residue-free and reusable thanks to reversible adhesion
- Versatile use for kayaking, surfing, skiing, motorcycling, car, boat and more
- Tool-free installation in seconds

Where conventional suction cups reach their limits, the

Specifications

Colour	orange
Material	plastic

ClingCup impresses with stability and flexibility – even under vibrations, cold or saltwater.

Technical data:

- Vertical holding force: up to 25 kg
- Lateral holding force: up to 9 kg
- Resistant to cold, saltwater and vibrations

Scope of delivery:

- 1 ClingCup suction cup (orange)
- 1 ClingCup adapter
- 1 M5 cap nut
- 1 M5 knurled screw
- 1 safety leash (Dyneema)
- 1 buoyancy ring
- 1 storage bag

Please note: the ActionCam is not included in the scope of delivery.
