

Item no. 322/765
Manufacturer's no. 13501632

Hitech Lithium Button Cell, Lithium Coin CR1632

Information

Dimensions	3.2 x 16 mm
Pack size	6.5 x 5.8 x 0.7 cm
Net weight	10 g
Gross weight	20 g

The high-tech lithium button cell Lithium Coin CR1632 from VARTA is the ideal power source for your small electronic devices. Developed for maximum reliability, this battery delivers maximum power for both pulse and continuous discharge applications.

All VARTA lithium button cells are packaged in childproof packaging and meet the highest safety standards. Perfectly suited for a variety of applications such as smart home devices, car keys, remote controls, scales and many other small electronic devices.

Advantages of the VARTA Lithium Coin CR1632:

- **High capacity for longer runtime:** enjoy an extended operating time for your devices
- **Up to 70% more energy:** experience long-lasting and reliable performance*
- **Low internal resistance and self-discharge:** ensures efficient energy supply and long service life
- **Extended shelf life:** guarantees high performance and a shelf life of up to 10 years

*Disclaimer: up to 70% more energy compared to IEC 60086-2 14.0. Electronic key test MAD. Performance may vary depending on use.

Specifications

Colour	silver
Content	1 piece
Nominal voltage	3 V
Type	CR1632
