These food-safe plastic canisters are made of polyethylene (PE). The use of modern tools and machinery makes it possible for the canisters to have a low weight but the highest level of quality. Due to the large opening of the canisters DIN 96 (80 mm), you can easily clean the inside of the canister by hand. Please also note the rich assortment of accessories for our canisters.

Wide-neck canister DIN 51, 61 and 96
