

Item no. 455/151
Manufacturer's no. Ersatzfilter

Replacement Filter for Travelbuddy

Information

Dimensions	6x9.6 cm
Pack size	28.5x14.5x7 cm
Net weight	180 g
Gross weight	400 g
Catalogue page	107

The replacement filter for the Travelbuddy portable water filter: For up to 1300 litres of clean & delicious water in drinking water quality – anywhere.

Filter tap water, water from wells, running water from rivers or streams, or water from the service water tank anywhere in the world. If the filter capacity is slowly exhausted, the flow rate decreases and filtering takes longer. You can then simply replace the filter block with this replacement filter and conveniently dispose of the old filter in the household waste.

A new filter block can be stored for up to 10 years. When not in use, you can remove the filter block and dry it completely. It can then be stored for up to 2 years. Store in a cool and dry place.

The product filters out chlorine, turbidity, suspended particles and flavourings, microplastics, drug residues, 99.9999% of bacteria, 99.99% of viruses and much more. Up to 1300 litres filter capacity per filter. The capacity depends on the degree of contamination of the source water.

Material: Activated carbon block made from coconut shell, electro-adsorption fleece, bio-based plastic with up to 80% wood and plant fibres. Seals made of FDA-compliant silicone.
