Roof tent camping guide – 150 special campsites in Germany and Austria

With the roof tent camping guide, you will find **150 selected campsites for nature-oriented and flexible camping** in Germany and Austria. The book takes you to romantic, quiet and remote locations – ideal for anyone travelling with a roof tent and looking for new favourite spots away from large campsites.

Be it **among vineyards, on a historic farm, directly by the lake or at the edge of the forest**: the featured sites offer varied travel destinations for spontaneous breaks and individual tours. Many campsites are located with **private hosts, winemakers or farmers**, enabling particularly personal stays close to nature.

Additionally, the camping guide presents special **roof tent villages in Germany**, where you can rent individual roof tent accommodations. The book is complemented by **detailed descriptions, pictures, QR codes**, as well as information on **camping regions, events and regional specialties**.

Especially practical are the **exclusive tips from the hosts**, which can only be found in this book. Thus, the roof tent camping guide becomes a valuable source of inspiration for
