

Item no. 323/382

Manufacturer's no. 45-380-1001

Shore Power Adapter

EcoFlow

Information

Dimensions	9.2x5x4.2 cm
Pack size	17.3x12.3x5.9 cm
Net weight	150 g
Gross weight	240 g

By connecting the shore power adapter to the EcoFlow DELTA 2, Pro or Max, these appliances can be used to power a motorhome or caravan via the shore power input without risk. As soon as the adapter is connected to an appliance of the DELTA series, it ensures that the residual current circuit breaker (RCCB) in the vehicle performs its usual function.

Without this shore power adapter, the fault circuit breaker in the vehicle cannot trip and there is a risk to life.

Specifications

Colour	black
Content	1 piece
Material	ABS acrylonitrile butadiene styrene
Suitable for	Delta 2, Delta Max, Delta Pro Powerstations
