Manufacturer's no. 403 152

Hollow Rivet

Information

Dimensions	9 mm
Pack size	13.8x5.7x1.1 cm
Net weight	34 g
Gross weight	34 g

The tubular rivets made of stainless brass with a diameter of 6 – 9 mm are suitable for different material thicknesses. This allows you to reliably and cleanly rivet thicker materials such as leather (belts), plastic (aprons) or other robust materials (tarpaulins). The matching tool is included in delivery – you only need a hammer in addition.

Specifications

Colour	silver
