Manufacturer's no. 97942112L0bs + 1-SP

Surface-Mounted Spot Flame 88 Touch Unit

Information

Dimensions	15 x 88 mm
Pack size	11.9 x 11.1 x 2.6 cm
Net weight	66 g
Gross weight	66 g

An integrated spot with touch function allows for on/off switching and dimming. The construction made of brushed steel, complemented by an acrylic ring, offers indirect lighting effects. Equipped with 21 SMD diodes for optimal light performance.

You will need the Touch Master for installation. It serves as an essential base for the system, to which up to five Flame 88 Touch units can be passively connected. The control of the light functions is possible through each connected Flame 88 Touch unit.

Specifications

Alignment	upper part
Dimmable	Yes
Energy efficiency class	F
Colour	steel grey
IP protection class	IP66
Luminous flux	64 lm
Nominal capacity	1 W
Nominal voltage	12 V 24 V
Type	Flame 88 Touch
