Electric Heater Eezy

Information

Dimensions	33 x 12.3 x 18.8 cm
Pack size	40 x 15 x 30 cm
Net weight	3.13 kg
Gross weight	3.91 kg
Catalogue page	535

The compact electric heater for pleasant warmth on the go

The **Truma Eezy** is the perfect electric supplementary or compact heater for recreational vehicles. Be it on cool summer nights, during transitional periods or targeted heat in larger motorhomes – Eezy ensures a comfortable temperature everywhere.

Versatile applications

- Autonomous heat for vehicles without heater – ideal for cold nights in the summer or during transitional periods.
- Additional heating power – perfect for cold areas like alcoves or rear bathrooms in motorhomes and caravans.
- Optimal solution for electric vehicles & vehicles with heat pumps – efficiently complements existing heating systems.

Efficient technology for maximum independence

- 230 V mains operation – two powerful heating coils of 900 W each provide even heat.
- Simple control via 12 V DC – can be flexibly powered by the vehicle battery.
- Integrated fan – draws in room air, heats it when necessary

Specifications

Colour	black
Nominal capacity	900 W
Nominal voltage	12 V 230 V

and distributes it optimally inside.

Safe, space-saving & easy to install

- Specifically approved for recreational vehicles – can be safely integrated into furniture.
- Efficient heating – optimally utilises electricity packages at the campsite.
- Space-saving & without exhaust gas stack – ideal for quick installation or retrofitting.
- Easy to install – ready to use quickly and easily thanks to the pre-assembled plug.
- Scope of delivery: Truma Eezy, Eezy control panel, electrical accessories & fastening material, Wago Winsta Midi connector (pre-assembled)

Easy to operate

The heater is controlled via a user-friendly control panel, on which you can set different modes and the desired target temperature.

- **Max mode:** maximum heating power for quick heating.
- **Eco mode:** efficient heating to keep your vehicle warm.
- **Night mode:** quiet operation for a pleasant night's rest.
- **Circulation mode:** air circulation without heating operation, with adjustable fan speed.

The target temperature can be conveniently set in five levels using a rotary switch.

Truma Eezy – the smart heating solution for more comfortable journeys!
