Manufacturer's no. 1

Emptying System for Water Pipes AES Basic

Information

Pack size	37x28x14 cm
Net weight	2.5 kg
Gross weight	2.5 kg
Catalogue page	436

The AES Basic optimises the emptying of water systems in recreational vehicles, which often do not dry completely. It is installed directly behind the fresh water tank and uses a compressor to efficiently remove water residues from all pipes. Compatible with submersible pump systems, you can easily install it yourself. With a gentle operating pressure of around 1.5 bar, it helps keep hose connections, taps and the boiler intact. Plastic connections.

AES Basic dimensions: 245 mm x 140 mm x 35 mm

Compressor dimensions: 160 mm x 90 mm x 120 mm

The installation set includes:

- Compressor holder
- Three-way switch
- Fuse holder
- 10 A fuse
- Red and blue blade receptacles
- Hose clamps
- Torx screws 3.5 x 16
