

Item no. 301/508
Manufacturer's no. EA-1001

Replacement Battery for AirCube – Lithium-Ion Battery

Information

Dimensions	100x20x40 mm
Pack size	12x7.5x2.8 cm
Net weight	180 g
Gross weight	190 g

With the replacement battery for the AirCube, you can reliably secure extra power when it matters. The powerful lithium-ion battery ensures that your AirCube keeps running without charging breaks – ideal wherever you rely on smooth operation.

With a full charge, up to 28 toilet uses are possible depending on usage. When the first battery is empty, simply switch to the charged replacement battery and continue using your system immediately. This way, you remain flexible as well as independent of a power connection and avoid unpleasant interruptions.

Advantages:

- Specifically designed as a replacement battery for the AirCube
- Lithium-ion technology for efficient energy utilisation
- Up to 28 toilet uses per full charge
- Quick battery change for continuous operation on the go

Specifications

Battery technology	Li-Ion (Lithium-Ion)
Capacity	6400 mAh
Nominal voltage	3.7 V
Type	AC-1001
