Atmospheric lighting for vanlife and camping

The Camperflower solar awning string lights create a cosy atmosphere for every camping evening. Thanks to the large solar panel, which clips directly onto the awning with a clamp, you can enjoy completely independent lighting – without a power connection. With a length of 10 m, 100 warm white LEDs and flexible mounting options, it is the ideal solution for atmospheric lighting on the go.

Advantages:

- **Extra-large solar panel** with clip for direct attachment to the awning
- **6 – 8 hours of lighting time** thanks to efficient solar technology
- **10 m long string lights** (7 m & 3 m) with 100 warm white LEDs on soft wire – flexible and tangle-free
- **Dimmable in 4 levels** for atmospheric lighting as desired
- **Practical transport box** with instructions and suitable accessories
- **Awning hooks for the piping rail** included – quick and secure attachment
