Universally usable

Experience flexibility and safety with the universal magnetic holder UNI. This versatile magnetic holder is perfect for attaching the WM filter during filling and can be used in a variety of areas, from camping and workshops to offices and gyms. With an inner diameter of 90 mm and designed for surface temperatures of up to 80 °C, the UNI adapts perfectly to your needs.

Strong performance thanks to neodymium magnets

The magnetic holder is equipped with two high-performance neodymium magnets that guarantee an extremely strong hold.

Protection and safety for all surfaces

The solid rubber coating not only ensures a secure hold, but also protects sensitive, painted surfaces from scratches and damage. The magnetic holder UNI can also be removed without leaving any residue, making it an indispensable tool for a wide range of applications. Be it in the workshop, in the office, at the gym or when camping – this magnetic holder delivers what it promises!
