Westfield
Top Quality Concept

Information

Dimensions	3 m
Pack size	76 x 14 x 10 cm
Net weight	900 g
Gross weight	1.05 kg
Catalogue page	65

The universal Drive Away Kit with triple piping (7/7 mm or 5/7 mm) serves as a detachable connection between the vehicle and the awning. The piping strap is threaded into the piping rail of the vehicle. By attaching the double profile rail, the piping of the awning can be easily connected to the vehicle. This makes it easy to connect the vehicle and to disconnect it to drive it away.
