LED Rope Afterglow

Information

Dimensions	6 m
Pack size	21 x 16 x 5 cm
Net weight	220 g
Gross weight	324 g
Catalogue page	71

Light, functionality and fewer insects

The LED rope **Afterglow** combines robust design with practical lighting and innovative insect repellence. With a load capacity of up to **150 kg** and weatherproof material, it is ideal for tensioning awnings or as a washing line. At the same time, the integrated lighting ensures greater safety in the dark – tripping hazards are a thing of the past.

A special advantage of the **red rope**: it attracts **up to 90% fewer insects***. The **6-metre-long LED lighting** is **continuously dimmable** and is powered via **USB-C** – be it through a power bank, a mobile adapter or a fixed socket in the vehicle.

To protect the power bank or for space-saving storage, the **LED rope** is packaged in a **dry bag**.

Advantages:

- **90% fewer insects**
- **6 m length** for versatile use
- **Max. load: 150 kg**
- **Continuously dimmable** for personalised light
- **USB-C connection** for flexible power supply

Specifications

Colour orange

- **Weatherproof material** for outdoor use
- **Practical dry bag** for safe storage

*Many insects use UV light for orientation. This means that insects are up to 90% less attracted to red light.
