

Item no. 300/070
Manufacturer's no. 24230

Frost Monitor Heater, 12 V

Information

Dimensions	20 x 1.8 cm
Pack size	28.3 x 15.9 x 3.6 cm
Net weight	240 g
Gross weight	269 g
Catalogue page	435

This **high power electrical heating cartridge** protects a water volume of about 40 l from freezing at temperatures down to -25 °C. Extremely reliable high-tech product, absolutely stainless, made of specially treated stainless steel with brass nut and gasket, overheating protection. For an easy installation into all fresh and waste water tanks. If the water temperature drops to about 5 °C, the frost monitor starts heating the water. Once the water reaches a temperature of about 10 °C, the frost monitor stops heating.

Technical data: 30 W during heating, reverse polarity protection, built-in thermostat with dry and overheat protection.

Specifications

Material	stainless steel
Nominal capacity	30 W
Nominal voltage	12 V
