Dimensions	30x13x31 cm
Pack size	31x30x13 cm
Net weight	690 g
Gross weight	910 g

Grey water collection system 2 x 20 l – dispose of 40 litres flexibly and hygienically

With the **grey water collection system 2 x 20 l**, you can dispose of wastewater comfortably, hygienically and independently of disposal stations. The set includes two collapsible containers, each with a capacity of 20 litres, allowing the safe collection of a total of **40 litres of grey water**. It is suitable for all common wastewater pipe systems and can be expanded without limit whenever needed.

Clean solution without odours and backflow

The closed connection system reliably prevents any liquid from escaping. Valve systems on both sides ensure controlled, clean handling without backflow. This avoids unpleasant odours and excludes contamination of the surroundings. It also effectively keeps pests away.

Flexible emptying – without moving the vehicle

The collected grey water can be conveniently emptied at home by the front door or at any desired location. Moving or repositioning the vehicle is not necessary. Long waiting times at supply and disposal stations can thus be avoided. This system offers a practical solution, especially at pitches or during longer stays.

Specifications

Capacity	40 l
Material	plastic

Space-saving, lightweight and durable

All components are of high quality and designed for long service life. The system is washable and easy to maintain. Thanks to the transparent design, you can always keep an eye on the fill level. Weighing only **690 grams** and requiring little space, the grey water collection system is ideal for space-saving storage in motorhomes or caravans.

The set consists of:

- 1 x adapter for connection to the factory-installed waste-water pipe system
- 1 x flexible hose, 50 cm
- 1 x coupling with integrated valve
- 2 x valve caps for collapsible containers
- 2 x collapsible containers, each with a 20-litre capacity
- 1 x replaceable, screw-on hose connection for 20 mm standard hoses for optional emptying on the pitch (hose not included in the set)
