Gas Cartridge All Season

Information

Dimensions	14 x 11 x 11 cm
Pack size	14 x 11 x 11 cm
Net weight	600 g
Gross weight	600 g

Reliable energy for every season

The **CV 470 All Season gas cartridge** is a powerful valve cartridge with a **425 g isobutane/propane mix** and is ideal for use in camping, trekking or outdoor cooking. The special **All Season gas mixture** ensures reliable performance even at lower temperatures and allows gas stoves to operate down to **-10 °C**.

Thanks to the balanced mixture of **85% isobutane and 15% propane**, the cartridge delivers a consistent and stable gas output under a variety of weather conditions. This makes it a practical solution for year-round use – from summer camping trips to cooler outdoor excursions.

The integrated **self-sealing safety valve** allows for safe removal and reuse of the cartridge. Devices can be connected and disconnected at any time without uncontrolled gas release. This keeps the cartridge flexible and allows multiple uses.

With **425 g of gas**, the CV 470 All Season provides sufficient energy for longer cooking processes and multiple uses on the go. It is a reliable energy source for camping stoves and outdoor kitchens, ensuring stable performance throughout the year.
