

Item no. 323/960

Manufacturer's no. 44-600-1023

Foldable Solar Panel, 110 Wp

ECOFLOW

Information

Dimensions	1944x413x36 mm
Pack size	44x6.5x5.7 cm
Net weight	3.37 kg
Gross weight	4.15 kg

High-efficiency solar panels: this one-piece, foldable solar panel is perfect for at home, camping and off-grid living. With a high solar output and an improved efficiency of 23%, you can charge your portable power station even faster than before.

Self-supporting: the protective case conveniently folds out into a sturdy stand that adjusts from 40° – 80° to allow the flexible solar panel to catch the most rays.

Durable and lightweight: made from several layers of flexible EVA and durable fibreglass to combine the versatility of flexible solar panels with the strength of rigid panels. The low weight, the robust design and the integrated shoulder strap make the panel ideal for outdoor adventurers.

Weatherproof: each monocrystalline silicon cell is covered with an ETFE film that protects it from dirt, grime and water. Thanks to the IP68 waterproof rating, this portable solar panel works safely in any weather and is perfect for camping and rooftop use.

Foldable and portable: with its compact design, this solar panel saves space when travelling and storing. Easy to set up to charge your portable power station. The solar panel is very easy to assemble and disassemble.

Scope of delivery: folding solar panel, XT60 connector

Specifications

Cable length	2.5 m
Short circuit current	6.8 A
No-load voltage	23.5 V
Number of panels	1
Nominal power solar panel(s)	110 Wp
Daily output	440 Wh
