Battery Holder Universal for Saftkiste

 **SAFTKISTE**

Information

Dimensions	550x20x120 mm
Pack size	37x7.5x2 cm
Net weight	300 g
Gross weight	1 kg
Catalogue page	624

The battery holder Universal is the ideal solution for the flexible and secure mounting of the Saftkiste 200 or Saftkiste 300, completely independent of the vehicle model. Be it camper, van, off-roader or special conversion: this holder ensures a stable, vibration-resistant installation.

Made from hot-dip galvanised steel, the holder offers maximum stability and corrosion protection – perfect for long-term use in motorhomes. The precise fit integrates seamlessly into the seat box and allows for quick installation without modifications.

Especially practical for custom conversions and self-builds where no specific seat holder fits. The Saftkiste is always securely in place – no matter where it is installed.

Scope of delivery: 2 holding plates, 4 mounting screws, installation instructions
