

Item no. 311/452
Manufacturer's no. 0244900

Plug-In Coupling SKU Gas PS 5 bar

GOK

Information

Pack size	17 x 10 x 4 cm
Net weight	80 g
Gross weight	80 g

For quickly connecting pipe lines with hose lines, including a protective cap. The gas flow is shut off when the coupling is disconnected.

The SKU plug-in coupling must always be used in conjunction with a check valve. Only the standardised STN plug nipples are to be used for connection to the hose line.

Due to a special mechanism, the SKU plug-in coupling is tamper-proof – unlocking is only possible with the STN plug nipple.

Specifications

Connection	RVS 8 x SKU
Max. pressure: PS	5 bar
