The backrest of the camping chair can be adjusted to seven positions, allowing for relaxed sitting. The padded, breathable seat made of open-pored material prevents moisture build-up and dries significantly faster than conventional foam cushions. The anodised H-frame and sturdy stabilising feet ensure maximum stability on any surface. The backrest and armrests are ergonomically shaped, while the adjustable headrest provides additional comfort. Thanks to the clever folding mechanism, the chair can be folded compactly for space-saving storage and easy transport.
