Folding Solar Panel Power Move 120 Wp

SOLARA®
module. komponenten. systeme

Information

Dimensions	1567 x 520 x 35 mm
Pack size	59 x 49 x 9 cm
Net weight	5 kg
Gross weight	6.46 kg
Catalogue page	607

The innovative folding solar panel combines maximum efficiency and flexibility in a compact design. Thanks to monocrystalline PERC cells with over 22% efficiency, it delivers maximum energy yield, even in low light or diffuse light conditions. The parallel connection of the three panels, each with 36 cells, ensures a high shading resistance.

With its lightweight, elegant design and robust construction in rainproof textile fabric, the panel is the perfect companion for on-the-go use. It offers a high energy output, does not take up much space and can be easily transported thanks to its foldable, handy format.

The **scope of delivery** includes a 5 m cable with a mobile cable solar charge controller FOX-062 and a 12 V car standard plug. The charge controller is adjustable for lithium, gel, AGM and liquid acid batteries. Perfect for maximum performance, mobility and versatile use.

Specifications

Cable length	5 m
Short circuit current	6.36 A
No-load voltage	23.76 V
Number of panels	1
Nominal power solar panel(s)	120 Wp
Daily output	480 Wh
Type	E480M108 Move
